DAY: 1

All the students were given a warm welcome by Dean Dr. B. Sendil Kumar, at the SAHS Auditorium. He interacted with the students about the advantages in choosing allied health courses, job opportunities and other aspects of college life.

He introduced all the faculties, who explained about each of their courses in brief.

AFTERNOON SESSION:

Department In-charges explained about course and rules & regulations of the college.

DAY:2

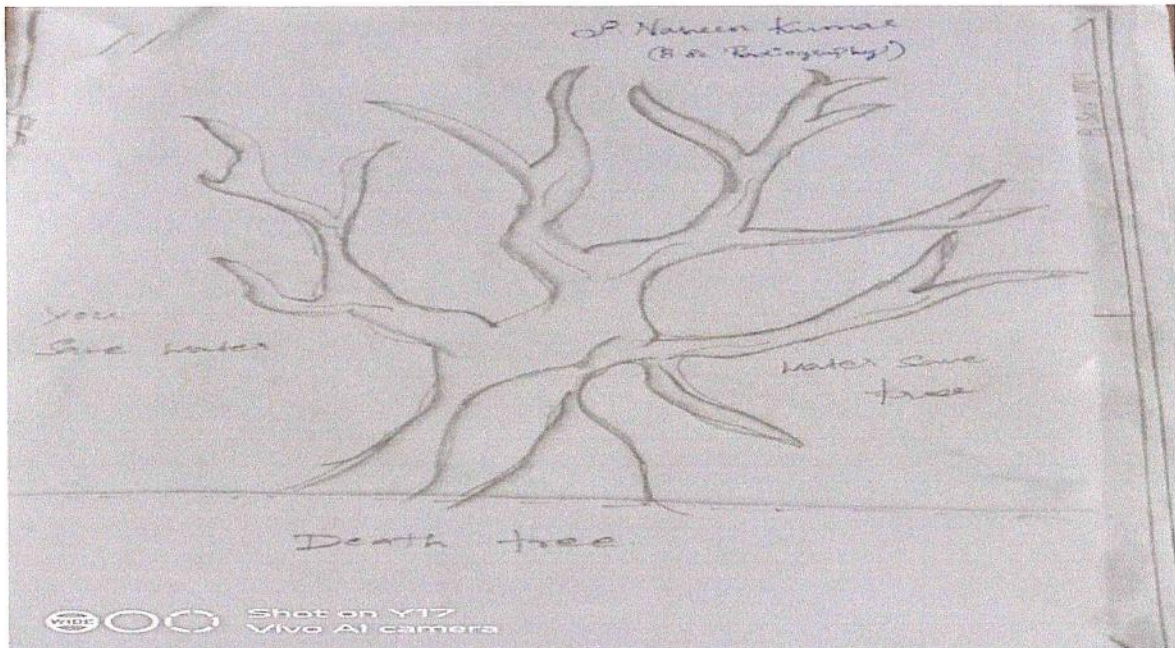

College is intended to harness our tremendous potential to change the world. It encourages us to focus on what we want to learn, to broaden our horizons, and cultivate new understandings. The point of college is to train us to engage with the world as people who know their purpose and have the power to fulfill it. The students were divided into groups and the staff's members gave seminar on learning methodology. It gave an insight to increase the learning skills and memory.

AFTERNOON SESSIONS:

Various classroom activities are conducted by faculty members.

1. Creativity
2. Skill Development

DAY:4

To develop the skills for the personality, skill development was conducted to the students.

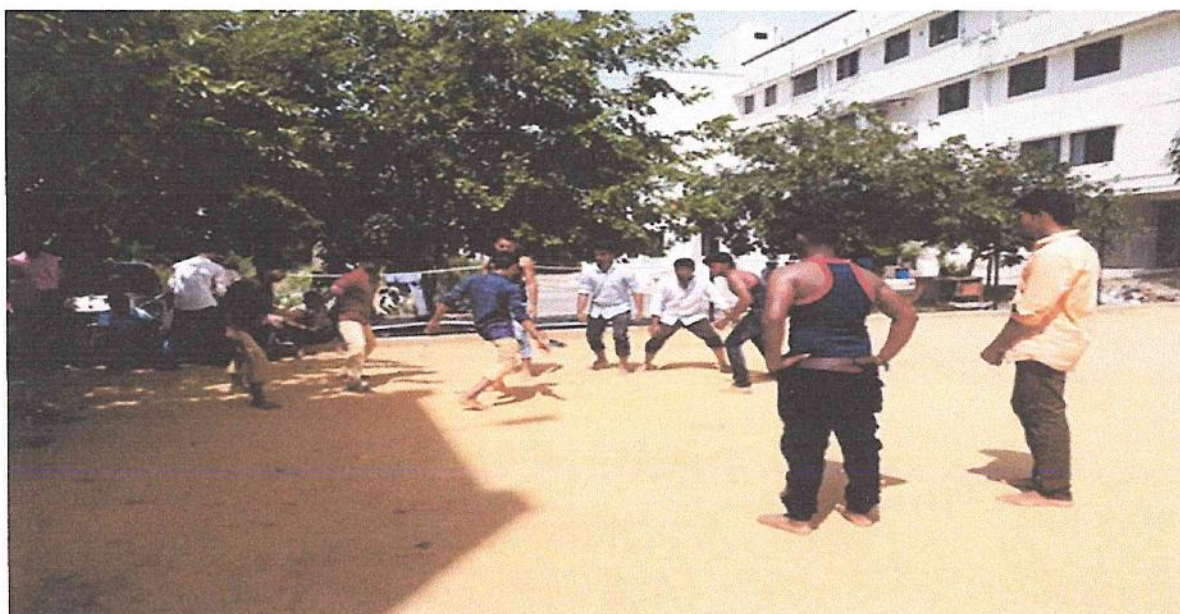

AFTERNOON SESSION:

Various sports activities were conducted.

Girls: Volley Ball

Girls: Shuttlecock

DAY:5

To develop the skills for the oral presentation, Faculties was gave the debating topic during the class hours. Students are prepared about this debating competition. They are done very well from this competition.
